CROWN WOOD PRIMARY SCHOOL

Report from **Amy Lewis and Jack Tillman (P.E. Leaders)** for the Governing Body meeting on **2.12.24**.

Purpose

- This report will provide a summary of how the school allocates and monitors its Sport Premium Funding.

Context

All young people should have the opportunity to live healthy and active lives. A positive experience of sport and physical activity at a young age can build a lifetime habit of participation and is central to meeting the government's ambitions for a world-class education system.

The School Sport and Activity Action Plan set out government's commitment to ensuring that children and young people have access to at least 60 minutes of sport and physical activity per day, with a recommendation of 30 minutes of this delivered during the school day (in line with the Chief Medical Officers guidelines which recommend an average of at least 60 minutes per day across the week).

The PE and sport premium can help primary schools to achieve this aim, providing primary schools with £320m of government funding to make additional and sustainable improvements to the quality of the PE, physical activity and sport offered through their core budgets. It is allocated directly to schools so they have the flexibility to use it in the way that works best for their pupils. The PE and sport premium survey highlighted the significant impact which PE and Sport has had in many primary schools across England.

Use of Sport Premium Funding

Schools must use the funding to make additional and sustainable improvements to the quality of the physical education (PE), physical activity and sport they provide

In addition, swimming is a national curriculum requirement and schools must publish information on the percentage of pupils in year 6 who met each of the 3 national curriculum requirements. The 3 requirements for swimming and water safety are that by the end of key stage 2 pupils should be taught to:

- swim competently, confidently and proficiently over a distance of at least 25 metres
- use a range of strokes effectively, for example, front crawl, backstroke and breaststroke
- perform a safe self-rescue in different water-based situations

Recommendations to Governing Body

The Governing Body is recommended to agree the proposed report as set in the appendix.
